RE: Pierson's Creek Superfund Site  
Request for Information Pursuant to 42 U.S.C. §§ 9601-9675

Dear Mr. Smith:

This letter seeks your cooperation in providing information relating to your company and the contamination of the Pierson's Creek Superfund Site ("Site") located in Newark, New Jersey. We encourage you to give this matter your immediate attention. We request that you provide a complete and truthful response to the attached Request for Information **within 30 business days** of your receipt of this letter.

The United States Environmental Protection Agency ("EPA") is investigating the presence of hazardous substances located at the Site, including hazardous substances that are or were discharged into Pierson's Creek. EPA has documented the release or threatened release of hazardous substances, pollutants and contaminants at the Site. Under Section 104(e)(2) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA"), as amended, 42 U.S.C. § 9604(e)(2), EPA has broad information gathering authority. EPA is seeking to obtain information concerning the Troy Chemical Company and its generation, storage, treatment, transportation, and disposal methods of these hazardous substances at its facility located at 1 Avenue L in Newark, New Jersey. EPA believes that you might possess information which may assist EPA in its investigation of the Site.

While EPA seeks your cooperation in this investigation, compliance with this Request for Information is required by law. In preparing your response to this Request for Information,
